SuprMentr – Assignment(5th March 2026):

Assignment: Component Hunt.

Break a popular website into components and sketch the structure.

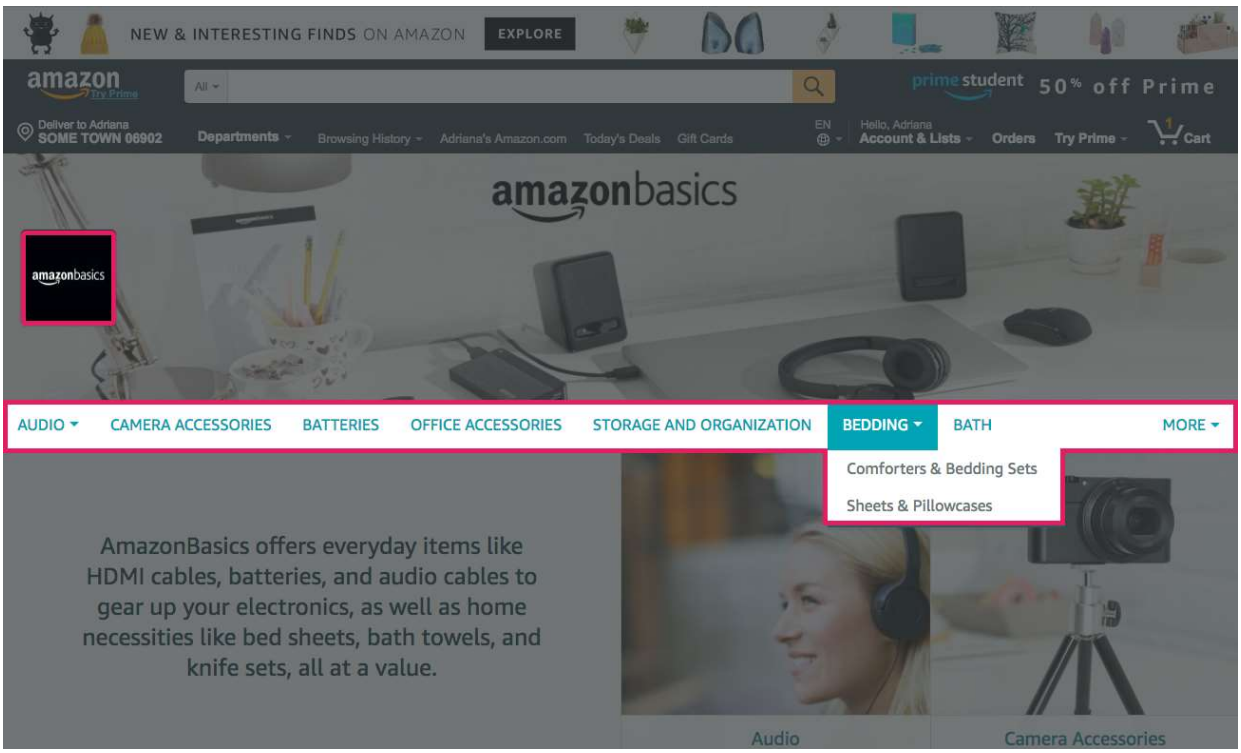
Ans: **1. Website Chosen**

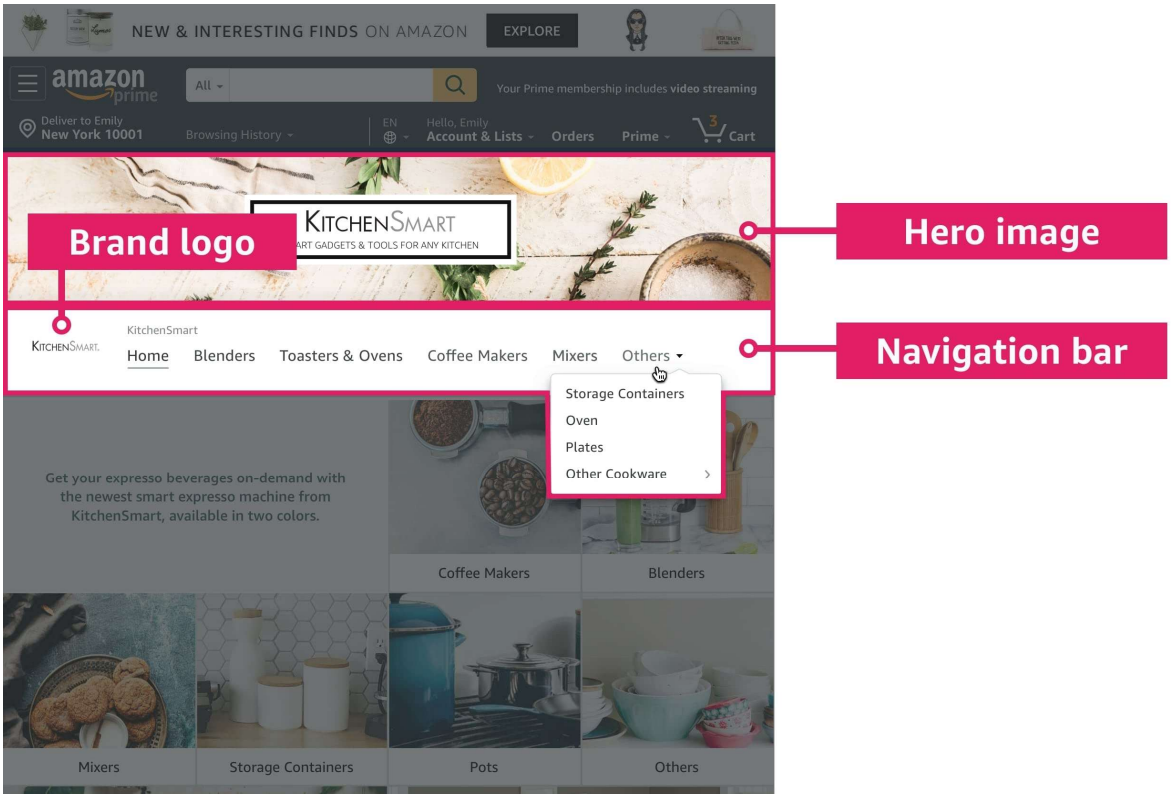
Amazon Homepage

Amazon is a good example because it contains many reusable UI parts like navbar, product cards, search bar, etc.

2. Main Components Breakdown

- **Header Component**





Sub-components inside Header:

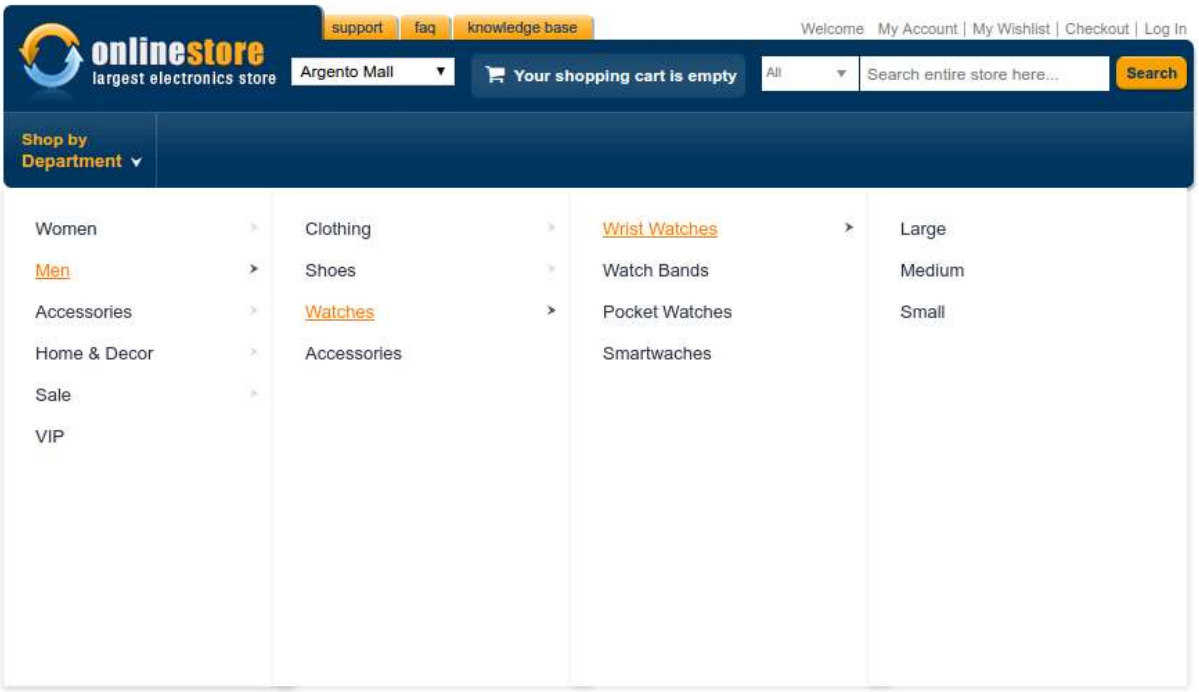
- Logo.
- Location selector.
- Search Bar.
- Language Selector.
- Account & Lists.
- Orders.
- Cart Icon.

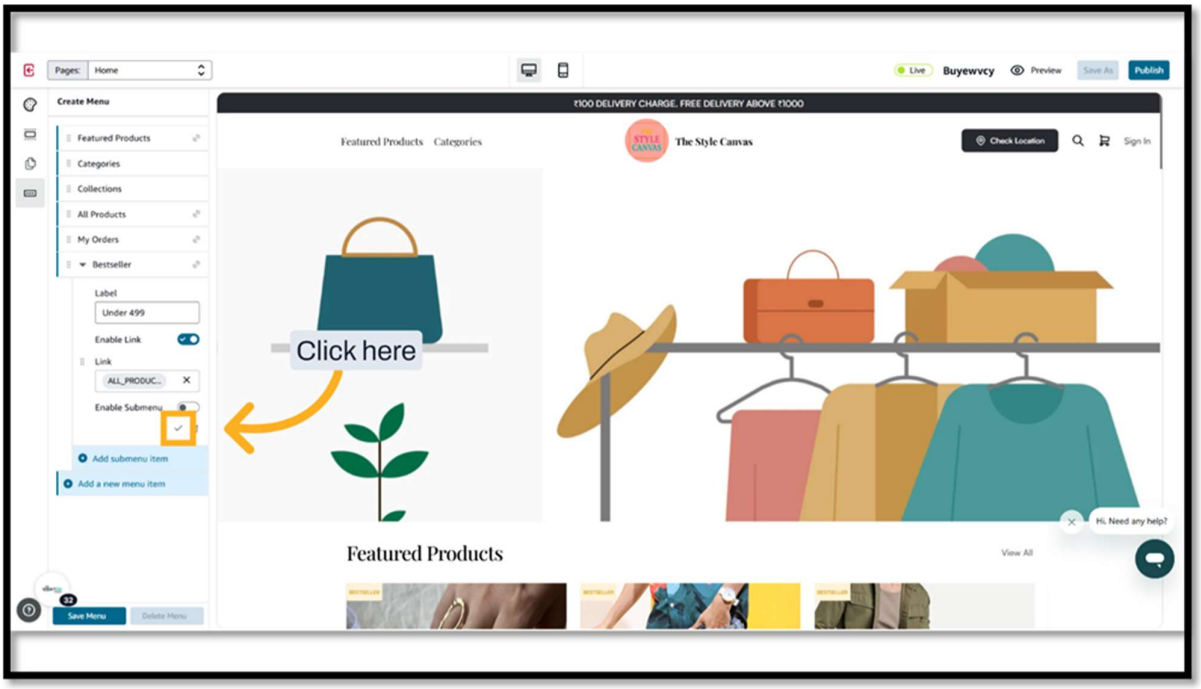
Component Structure:

```
Header
 ├── Logo
```

```
├── Location
├── SearchBar
├── LanguageSelector
├── AccountMenu
├── Orders
└── CartIcon
```

- **Navigation Menu Component**





Sub-components:

- All Menu Button.
- Category Links (Today's Deals, Electronics, Fashion, etc).

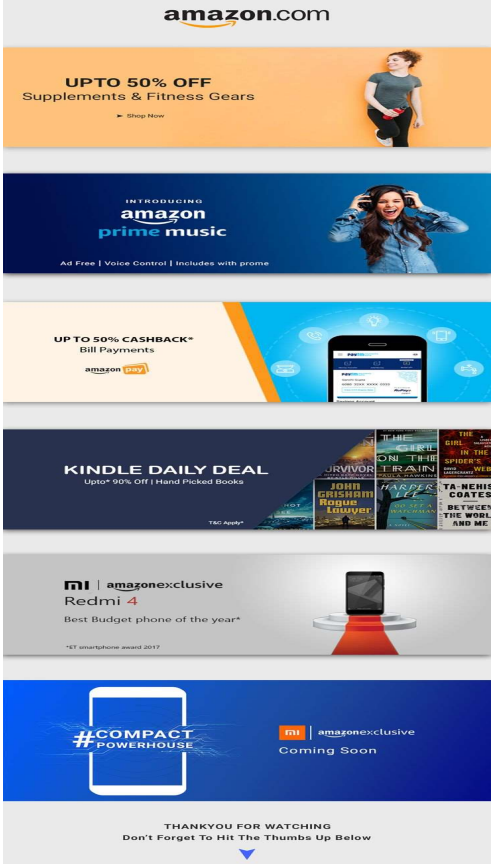
Component Structure:

```
NavMenu
├── MenuButton
├── CategoryLink
├── CategoryLink
└── CategoryLink
```

- **Banner / Hero Section**

Sub-components:

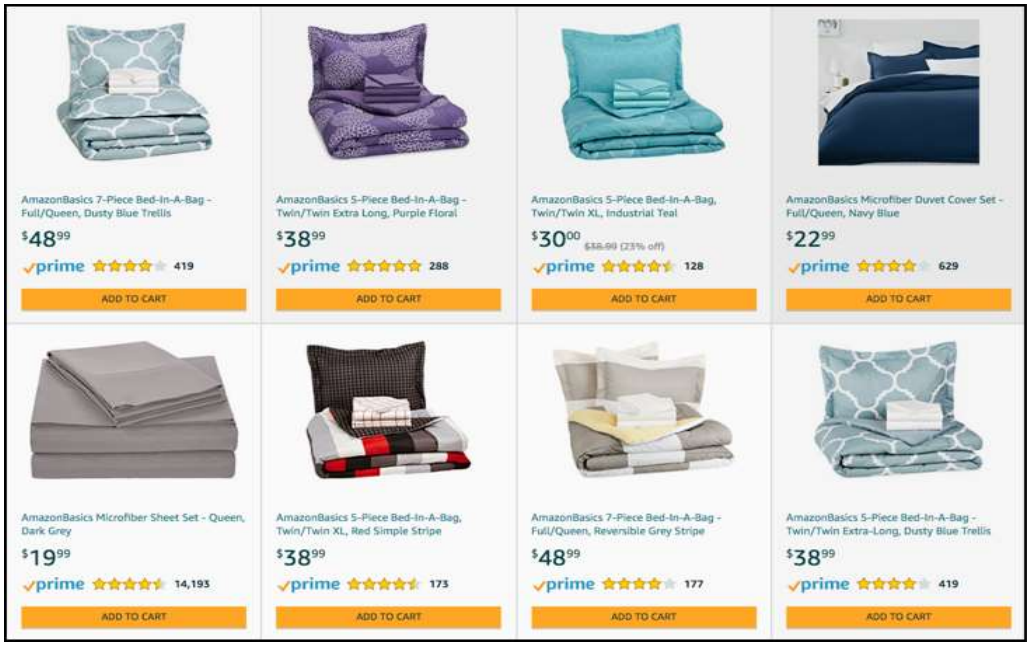
- Banner Image.
- Slider Controls.
- Promotion Text.

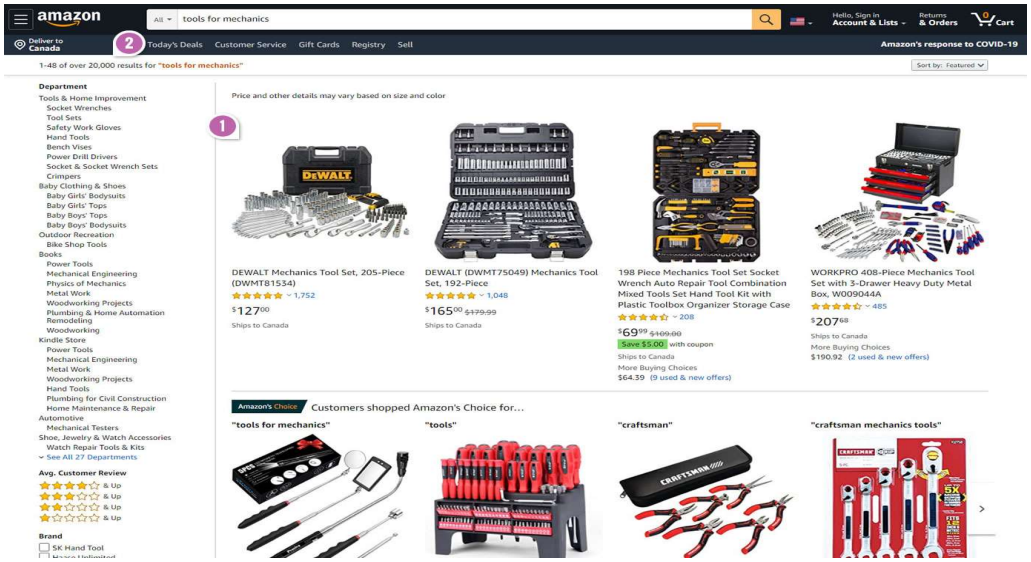


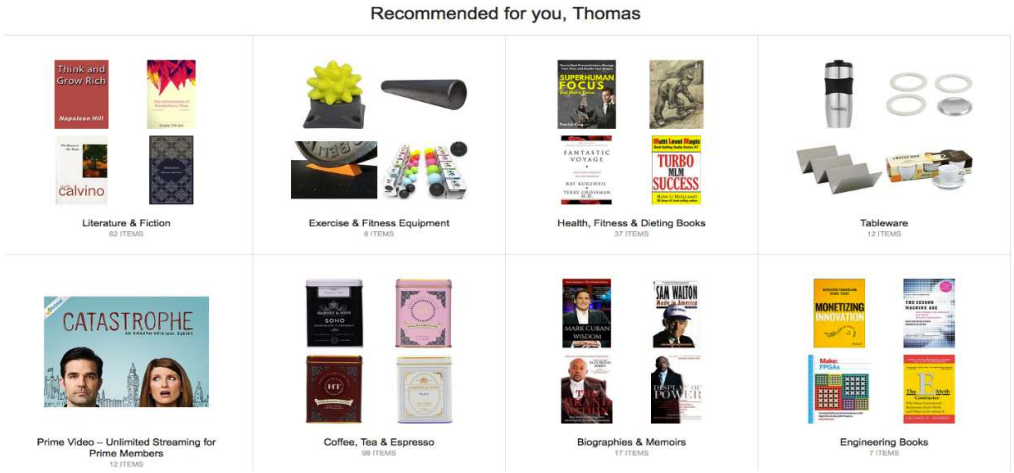
Component Structure:

```
HeroBanner
├── BannerImage
├── SliderControls
└── PromotionText
```

- **Product Section**







Sub-components:

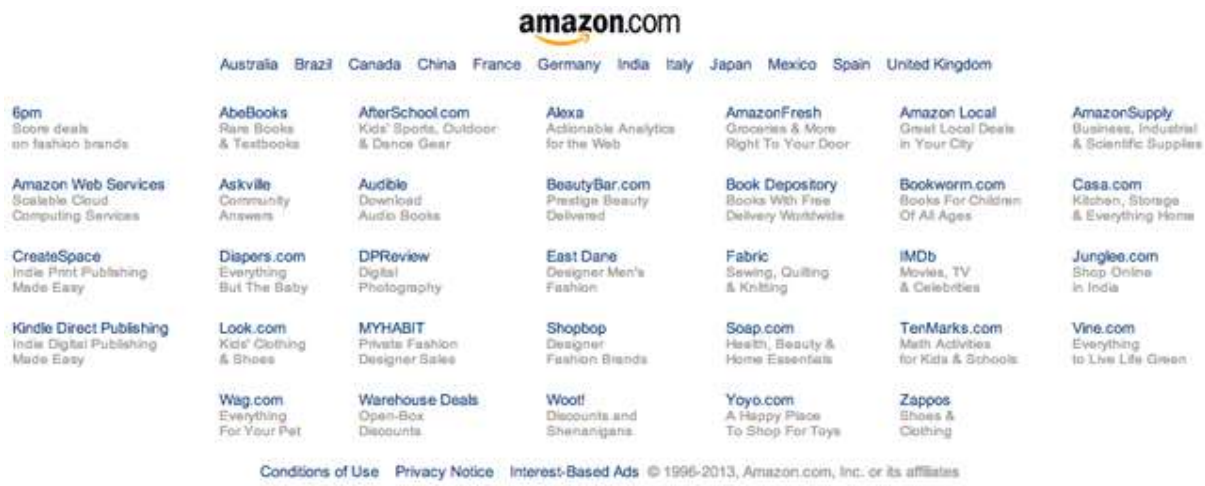
- Product Card.
- Product Image.
- Product Title.
- Price.
- Rating.
- Add to Cart Button.

Component Structure:

```
ProductSection
 ├── ProductCard
 │    ├── ProductImage
```

```
│   ├── ProductTitle
│   ├── Price
│   ├── Rating
│   └── AddToCartButton
├── ProductCard
└── ProductCard
```

- **Footer Component**



Sub-components:

- About Links.
- Customer Service Links.
- Social Media Links.
- Copyright Text.

Component Structure:

```
Footer
├── AboutSection
├── HelpSection
├── SocialLinks
└── Copyright
```

3. Overall Component Tree(Sketch)

```
App
├── Header
│   ├── Logo
│   ├── SearchBar
│   └── CartIcon
```

```
│
├── NavMenu
│   └── CategoryLinks
│
├── HeroBanner
│
├── ProductSection
│   └── ProductCard
│   ├── Image
│   ├── Title
│   ├── Price
│   └── AddToCart
│
└── Footer
├── About
├── Help
└── SocialLinks
```

4. Conclusion

Breaking a website into components helps developers create reusable, maintainable and scalable UI structures, especially in frameworks like React.
